

**PREVALENCE OF LIVER DISEASE
STATE FACT SHEET**

American Liver Foundation (ALF) Liver Life Advocates—Raising Awareness, Advancing Change™, represents more than 100 million Americans affected by liver disease.

Delaware Residents Affected by Liver Disease

Monique C.

Monique advocates to raise awareness about liver disease and the importance of organ donation and increasing living donor protections. Diagnosed with autoimmune hepatitis at age 15, Monique knows firsthand how devastating liver disease is and feels fortunate to have received a life-saving liver transplant despite so many others still waiting on the transplant list.

State Statistics

170

Delaware residents died from liver disease/cirrhosis in 2022

3

ALF 2025 Legislative Priorities

- Increase funding for MASLD research and education
- Expand liver disease surveillance and prevention efforts at the CDC
- Finalize coverage for anti-obesity medication under Medicare Part D
- Support laws like the [Living Donor Protection Act](#), [Safe Step Act](#), [HOLD Act](#) and [HELP Copays Act](#)
- Improve access to liver disease treatments and reduce out-of-pocket costs

ALF is a national community of patients, caregivers and medical professionals dedicated to helping people improve their liver health. Providing guidance and life-saving resources, we are a beacon for the 100 million Americans affected by liver disease. We advocate for patients and families, fund medical research and educate the public about liver wellness and disease prevention. We bring people together through our educational programs and events and create a network of support that lasts a lifetime. ALF is the largest organization focused on all liver diseases and the trusted voice for patients and families living with liver disease. For more information visit liverfoundation.org or call 1-800-GO-LIVER (800-465-4837).
