TAKING INTERDISCIPLINARY PAIN MANAGEMENT INTO PRIMARY CARE
Get expert support for managing your patients’ chronic pain in a virtual learning network.

Learn about best practices and evidence-based treatment for:
• Complementary behavioral health resources
• Opioid features and selection
• PTSD
• Dissatisfied patients

WHY CHRONIC PAIN ECHO?
Chronic Pain Management ECHO provides an opportunity for discussion where knowledge is shared, and it empowers and supports primary care providers to more effectively and confidently treat patients suffering from chronic pain, in all aspects of their experience. The Chronic Pain Management ECHO is an integration of medical, pharmacological and psychological considerations into the treatment of the chronic pain patient in rural and more isolated settings.

INTERDISCIPLINARY PANEL INCLUDES PAIN MANAGEMENT, BEHAVIORAL HEALTH, PHARMACY, HEALTH LITERACY AND NURSING

WHAT DOES CHRONIC PAIN ECHO OFFER?
• Free CME for health care professionals*
• Collaboration, support and ongoing learning with experts and other physicians
• Patients get better care in home community
