

I don't have insurance, what can I do? • How can I care for a loved one with liver disease? • How can I take care of my liver? • What can I eat? • Is there a cure for

Your Liver. Your Life.

National Helpline

1-800-GO-LIVER
(1-800-465-4837)

Hepatitis C (HCV)? • How is cirrhosis caused? • What are the symptoms of Autoimmune Hepatitis (AIH)? Where can I join a support group? • I don't have insur-

The American Liver Foundation National Helpline Specialist will listen and respond with the most current and helpful information available.

Call the American Liver Foundation National Helpline:

1-800-GO-LIVER / 1-800-465-4837
Mondays - Fridays, 9 AM-7 PM EST

Live Chat available on all of our websites

HOW CAN WE HELP YOU?

The American Liver Foundation National Helpline has Information Specialists who are available to:

- Answer basic/general questions about liver disease, liver wellness and liver transplants
- Respond to national and international requests for information
- Direct callers to local services and possible resources for financial assistance
- Provide information about clinical trials
- Help locate a local healthcare provider/local support group
- Offer a free drug discount card for the uninsured and underinsured
- Link to interpretation services in order to provide support in 189 languages/dialects upon request

The American Liver Foundation National Helpline Specialist is unable to:

- Provide medical advice or recommendations
- Interpret lab test results for patients
- Recommend specific healthcare providers and facilities
- Provide direct financial assistance
