

**PREVALENCE OF LIVER DISEASE
STATE FACT SHEET**

American Liver Foundation (ALF) Liver Life Advocates—Raising Awareness, Advancing Change™, represents more than 100 million Americans affected by liver disease.

Oregon Residents Affected by Liver Disease

Ryan G.

Ryan advocates to raise awareness about living donor transplants, education and support. Ryan donated a portion of his liver to a friend who had cirrhosis and then cancer of the liver. The Living Donor Protection Act and other similar efforts aid in increasing awareness and dispelling myths about difficulties in becoming a living donor.

Lucas W.

Lucas advocates to raise awareness about the importance of liver health and early detection in the medical community. As a patient with alcohol-associated liver disease, Lucas has witnessed many primary care physicians dismiss liver health and liver disease. He hopes to educate everyone, including non-liver experts, about the role of the liver and how vital it is to their life and overall well-being.

State Statistics

862

Oregon residents died from liver disease/cirrhosis in 2023

110

liver transplants were performed in Oregon in 2025

91

people are on the liver transplant waitlist

6

Oregonians died while on the liver transplant waitlist in 2025

9.1%

of adults in Oregon have diabetes

31.1%

of adults in Oregon are obese

18.5%

of adults have no leisurely physical activity

ALF 2026 Legislative Priorities

- Support Living Donors: Advance the Living Donor Protection Act and the Expanding Support for Living Organ Donors Act to protect donors and reduce financial barriers
- Ensure Patient Access: Pass the Safe Step Act, Treat and Reduce Obesity Act, and HELP Copays Act to improve access and affordability
- Pediatric Screening: Advance the Ian Kalvinskas Pediatric Liver Cancer Early Detection and Screening Act for earlier diagnosis
- CDC Efforts: Strengthen liver disease surveillance and prevention

ALF is a national community of patients, caregivers and medical professionals dedicated to helping people improve their liver health. Providing guidance and life-saving resources, we are a beacon for the 100 million Americans affected by liver disease. We advocate for patients and families, fund medical research and educate the public about liver wellness and disease prevention. We bring people together through our educational programs and events and create a network of support that lasts a lifetime. ALF is the largest organization focused on all liver diseases and the trusted voice for patients and families living with liver disease. For more information visit liverfoundation.org or call 1-800-GO-LIVER (800-465-4837).
