

PREVALENCE OF LIVER DISEASE STATE FACT SHEET

American Liver Foundation (ALF) Liver Life Advocates—Raising Awareness, Advancing Change™, represents more than 100 million Americans affected by liver disease.

Wisconsin Residents Affected by Liver Disease

Angela T.

Angela advocates to raise awareness about the importance of liver health education and for better access to specialized care. In 2022, Angela was diagnosed with a rare liver disease and still does not fully understand her condition. She wonders what her future holds, or if she will be alive to see her children graduate college.

Cathy W.

Cathy advocates to raise awareness about the importance of liver health and early detection. Despite being a medical professional, Cathy was unaware of metabolic dysfunction-associated steatotic liver disease (MASLD) until a close friend was diagnosed. Now, she is on a mission to help educate others.

ALF is a national community of patients, caregivers and medical professionals dedicated to helping people improve their liver health. Providing guidance and life-saving resources, we are a beacon for the 100 million Americans affected by liver disease. We advocate for patients and families, fund medical research and educate the public about liver wellness and disease prevention. We bring people together through our educational programs and events and create a network of support that lasts a lifetime. ALF is the largest organization focused on all liver diseases and the trusted voice for patients and families living with liver disease.
