you're all now aware of by a very aggressive #PR Team and costly campaign to silence and physically harm me from exposing. It only aimed to prevent me from further sharing publicly the facts and insights @LadyKP shared with me during our frequent and intimate conversations in her selfless attempts to save my life by sharing frequent plans to do harm, and possibly by ending my life.

Further #InvestigationRequest Re: Ms. #KimberlyAntwinettePorter

I am writing this post to formally request an investigation into an entire group of individuals who worked at or around the residence of Ms. Kimberly Porter including the publicists who assisted drafting this. It has come to my attention that these persons were also instructed to steal her computer and mobile devices, which contained her "original book notes." Original notes are distinct from the fabricated bullshit and offensive pages circulated via Amazon which depict graphic sexual acts involving me that NEVER took place and were edited and added after Ms. Porter's tragic murder.

I urge you to consider who authorized such a fictitious publication without categorizing it as "Calculated Fiction." The publicists and conspirators worked in concert, from separate camps launching this campaign which appears to be a very personal and a deliberate distraction from there involvement in covering horrific crimes, assisted in, & perplexed the public for many years, which I have personally experienced and cautiously deemed just a "medical crisis" for legal reasons until the rest of these atrocities were uncovered by authorities making it more believable to a gullible public that has been fooled for so long.
